Child Psychology Urged Studied by Club Women

Mrs. Gertrude Steele Chambers, Expert on Subject, Launches Campaign to Induce N. Y. Organizations to Establish Special Training Departments

An appeal to the clubwomen of New York to launch a movement for the study of child psychology will be made by Mrs. Gertrude Steele Chambers, of Montgomery, Ala., expert in applied psychology, at two meetings in the Town Hall, April 26 and 29.

Special invitations have been issued to the presidents of the New York City and the New York State federations of women's clubs. Arrangements are being made for representatives of Sorosis, Eclectic and the Brooklyn Woman's Club to be present.

"Every woman's club should have a department for the study of psychology, as it affects the home," declared Mrs. Chambers, who recently returned from conferences with clubwomen in New Orleans. "The New York State Federation of Women's Clubs, with its three hundred thousand members can take the lead in work for the training of the child in order to develop constructive emotions which mean happiness and success in after life."
